

California OES Weather Threat Briefing

Wednesday, June 10, 2020
9:00 AM PDT

- **Day 1 (Wednesday):** Elevated fire weather conditions and moderate heat impacts are expected today coastal portions of Southern Region.

National Weather Service
*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

06/10/20 - 06/16/20

Wednesday-Thursday

- Gusty winds, combined with dry relative humidity, will create elevated fire weather concerns for southern and inland regions through Thursday
- The warming trend continues into Thursday, especially inland. Moderate heat impacts are expected across southern coastal regions today before some cooling on Thursday
- Showers are possible across northern CA on Thursday.

Friday-Tuesday

- The weather will trend cooler for Friday through Sunday before a warming trend begins for Monday and Tuesday across central and southern CA
- Breezy conditions are expected across much of the state on Friday and Saturday.
 - These winds combined with dry conditions will lead to increased fire weather concerns for portions of central and southern CA
- Showers and isolated thunderstorms are possible across northern CA and into the Sierras Friday and Saturday
